It's never been easier to make money with CPA. What exactly does CPA stand for? It's simply COST PER ACTION. You are paid whenever someone completes an offer whether it is a sale or lead using your referral link. There are

many CPA companies available to choose from, each having dozens or even hundreds offers. Throughout this guide I'll be introducing you to a variety of techniques and strategies that you can use to profit substantially from CPA. These are all strategies that I have personally used to make money online with CPA offers. Nothing is left to the imagination. Upon completing the reading of this eBook, you will have a clear understanding of what it takes to profit from CPA offers, and will be able to get started promoting. It's possible you've completed CPA offers in the past and didn't realize that you were literally giving the person money just from you downloading a software application, or inputting your zip code or email address into a form. It's really amazing that something as simple as entering your email address into a form with one field can result in being paid up to \$1.50 in most cases. When you join a CPA company what you're basically doing is aiding that company in promoting the advertisers that have registered with that company to have their product or service promoted. CPA companies break down their service into two categories. Category one is the Advertisers. These are the companies that have paid the CPA Company to promote their product. In most cases they have pre-paid a deposit to have their product or service promoted. Once the deposit is made and the offer goes live within the CPA Company's database, it is made available for the second category. Category two is the Publishers. As noted, the Advertisers have their company listed with the CPA Company's database, so now it is available for the Publishers to start promoting. The Publishers are the promoters.
