Although the book is expensive I found it was money well spent as it taught me a lot about the workings of the Forex market and what causes currencies to move. I would recommend this book to other currency traders.2 of 2 people found the following review helpful.

Packed with a great deal of information and precise trading techniques. By Stephen Perrenod A comprehensive overview of forex, covering fundamental and technical sides of the market. Kathy has a very well-developed sense of how the markets react to changes in fundamentals and new reports. The focus is on the major currency pairs, and a number of well-defined trading techniques are included.
