**S.S Bhavikatti : Design and Drawing of Steel Structures** before purchasing it in order to gage whether or not it would be worth my time, and all praised Design and Drawing of Steel Structures:

A structural design can be executed only after drawings are supplied to the site engineers and the technical staff. Hence, it is very important that a design engineers should be provided with correct drawings. Due to this importance civil engineering students are taught not only design but drawing also. Design of steel structures as per IS: 800-2007 is briefly presented in this book and detailed drawings are presented. Students of Civil engineering will find it useful for understanding the course Design and Drawing of Steel Structures.

About the Author S.S. Bhavikatti obtained his Ph.D. in 1977 from I.I.T. Delhi. He served NITK Surathkal in different positions like Head of Civil Engg. Dept.; Chairman, Centre for Continuing Education; Chairman, Central Computer Centre and Dean. He has also served SDM College of Engineering and Technology, Dharwad; Rao Bahadur Y. Mahabaleswarappa Engineering College, Bellary (formerly Vijayanagar Engg. College) and B.V.B. College of Engg. Technology, Hubli. He has published more than 60 technical papers in national and international journals and seminars and 22 books in civil engineering. He guided 66 candidates for M.Tech thesis and 5 candidates for Ph.D. He was a member of organizing/ scientific communities of international seminars organized by I.A.S.S. held at Taegue (South Korea) in 1990, Tokyo (Japan) in 1993 and Taipei (Taiwan) in 1997. He is a member of several Indian and international professional bodies.
