**Mary Lynn Garcia : Design and Evaluation of Physical Protection Systems** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Design and Evaluation of Physical Protection Systems:

0 of 0 people found the following review helpful. Graduate text book for a good buy.By RHGreeneExcellent graduate level text book.0 of 0 people found the following review helpful. Five StarsBy CassGreat condition as seller claimed.0 of 0 people found the following review helpful. Five StarsBy Gary MorimotoVery good reference book for those who are involved with Crime Prevention.

Design and Evaluation of Physical Security Systems, Second Edition, includes updated references to security expectations and changes since 9/11. The threat chapter includes references to new threat capabilities in Weapons of Mass Destruction, and a new figure on hate crime groups in the US. All the technology chapters have been reviewed

and updated to include technology in use since 2001, when the first edition was published. Garcia has also added a new chapter that shows how the methodology described in the book is applied in transportation systems. College faculty who have adopted this text have suggested improvements and these have been incorporated as well. This second edition also includes some references to the author's recent book on Vulnerability Assessment, to link the two volumes at a high level. New chapter on transportation systems Extensively updated chapter on threat definition Major changes to response chapter
