By Erin N
Required book for grad school, so not a choice on buying it one way or the other. Written by a professor who works at SUNY Albany.
Found it very informative, and of course you can't go wrong with the prices on here as compared to buying it from school. Interesting read for all people studying business. Found it especially interesting being a young women in the business world. A book that I didn't sell back and intend to keep for reference in the future.

Excellent condition! Just as described.

This book provides research-based evidence within the Competing Values Framework to examine women's leadership styles, demonstrate their suitability for senior management positions, and show how employers must embrace women in leadership roles in order for their companies to be diversified and globalized.
• Developmental plans based on self assessment and self-analysis of women managers using the Competing Values Framework
