From University of California Press : Distribution Revolution: Conversations about the Digital Future of Film and Television before purchasing it in order to gage whether or not it would be worth my time, and all praised Distribution Revolution: Conversations about the Digital Future of Film and Television:

2 of 2 people found the following review helpful. This is well-executed collection of riveting conversations with industry executives who offer their candor and creative thoughtBy Dion EusepiReally valuable insight from industry insiders. This is well-executed collection of riveting conversations with industry executives who offer their candor and

creative thought on the digital reinvention of entertainment content and how to build intelligent business and distribution models that anchor future investments around new hybrid and dedicated digital entertainment eco-systems.

Distribution Revolution is a collection of interviews with leading film and TV professionals concerning the many ways that digital delivery systems are transforming the entertainment business. These interviews provide lively insider accounts from studio executives, distribution professionals, and creative talent of the tumultuous transformation of film and TV in the digital era. The first section features interviews with top executives at major Hollywood studios, providing a window into the big-picture concerns of media conglomerates with respect to changing business models, revenue streams, and audience behaviors. The second focuses on innovative enterprises that are providing path-breaking models for new modes of content creation, curation, and distribution—creatively meshing the strategies and practices of Hollywood and Silicon Valley. And the final section offers insights from creative talent whose professional practices, compensation, and everyday working conditions have been transformed over the past ten years. Taken together, these interviews demonstrate that virtually every aspect of the film and television businesses is being affected by the digital distribution revolution, a revolution that has likely just begun. Interviewees include: Gary Newman, Chairman, 20th Century Fox Television; Kelly Summers, Former Vice President, Global Business Development and New Media Strategy, Walt Disney Studios; Thomas Gewecke, Chief Digital Officer and Executive Vice President, Strategy and Business Development, Warner Bros. Entertainment; Ted Sarandos, Chief Content Officer, Netflix; Felicia D. Henderson, Writer-Producer, *Soul Food*, *Gossip Girl*; Dick Wolf, Executive Producer and Creator, *Law Order*

"Although the collection largely allows individuals at the forefront of changing practices to speak for themselves, Curtin, Holt, and Sanson lead them through carefully crafted questions and assembled an insightful and diverse roster of interviewees... Distribution Revolution provides a resource students will recognize as relevant and applicable to their world."
