Clive Hamilton : Earthmasters: The Dawn of the Age of Climate Engineering' before purchasing it in order to gage whether or not it would be worth my time, and all praised Earthmasters: The Dawn of the Age of Climate Engineering':

This book goes to the heart of the unfolding reality of the twenty-first century:nbsp;international efforts to reduce

greenhouse gas emissions have all failed, and before the end of the century Earth is projected to be warmer than it has been for 15 million years. The question "can the crisis be avoided?" has been superseded by a more frightening one, "what can be done to prevent the devastation of the living world?" And the disturbing answer, now under wide discussion both within and outside the scientific community, is to seize control of the very climate of the Earth itself.
