Culled from the pages of the Chicago Tribune, this collection of articles features the most relevant and recent business stories on innovation, entrepreneurship, and technology as reported by the award-winning Tribune columnists and

reporters. Innovation and Technology encapsulates the cutting-edge developments in the tech world that are affecting large corporations, small business, start-ups, and consumers alike. Innovation and Technology is divided into three main sections: Innovation in Chicago, Profiles in Innovation, and Technology in the News. The Innovation in Chicago section discusses the latest start-ups in Chicago, as well as how innovative technologies (anywhere from 3D printing to so-called civicrdquo; apps) are being used by businesses and institutions throughout the Windy City. The Profiles in Innovation section is full of fascinating interviews with thought leaders, business owners, CEOs, and entrepreneurs from the Midwest and Greater Chicagoland area. Finally, the Technology in the News section gathers the big tech stories of 2013, from Google Glass to the latest investments in burgeoning new companies. Extensive first-person interviews and in-depth reporting by the Chicago Tribune makes Innovation and Technology a broad yet detailed look at the larger concept of innovation and how it pertains to individuals and businesses on the local level.
