VALERY YA. VILISOV, ANNA V. VILISOVA : INNOVATIONS AND SMALL BUSINESS: CURRENT SITUATION AND MODELING before purchasing it in order to gage whether or not it would be worth my time,

and all praised INNOVATIONS AND SMALL BUSINESS: CURRENT SITUATION AND MODELING:

Novelty of the work consist in the following points. Systematic analysis of macro- and micro-objects interacting within the single economic environment, including the influence of the country's macro policy in the field of innovations on the development of the science and technology parks, especially the influence of the country's macro policy in the field of innovations on the development of the science and technology parks. Estimation of the contribution of the small enterprises into the country's GDP and assessment of the development trends. The work proposed directions of the small enterprises' development and trends for the changing of the institutional mechanisms and evolution of the country's policy, also there have been created an algorithm for choosing the type of innovation.
