Dennis Appleyard, Alfred Field : International Economics, 8th edition (McGraw-Hill Economics) before purchasing it in order to gage whether or not it would be worth my time, and all praised International Economics, 8th edition (McGraw-Hill Economics):

0 of 0 people found the following review helpful. Wish I was smarter.By Gregory T. CaldwellI did not under the book, shows how smart I am.0 of 0 people found the following review helpful. Entire first 2.5 chapters (30 pages) were ripped out and missingBy Chris M.The entire first 2.5 chapters of the book were ripped out and missing. The first 30 pages gone. If the condition of a book is listed as "good" I would expect the book to be in one piece, and contain everything I would assume to be purchasing. Very disappointing0 of 0 people found the following review helpful. CollegeBy AllcountryatheartIt's a book for college, it does it's job!

Appleyard and Field's International Economics provides a balanced treatment of international economicsinternational trade theory and policy and international monetary theory and policy. Comprehensive and clear, International

Economics helps students move beyond recognition toward an understanding of current and future international events through real world examples featured throughout the text. New improvements covering the emerging issues in the global economy are designed to help readers both understand and appreciate the growing importance of the global economy in their lives.
