Hendrik Van den Berg : International Economics: A Heterodox Approach: A Heterodox Approach before purchasing it in order to gage whether or not it would be worth my time, and all praised International Economics: A Heterodox Approach: A Heterodox Approach:

Now in its third edition, this textbook covers all of the standard topics taught in undergraduate International Economics courses. However, the book is unique in that it presents the key orthodox neoclassical models of international trade and investment, whilst supplementing them with a variety of heterodox approaches. This pluralist approach is intended to give economics students a more realistic understanding of the international economy than

standard textbooks can provide.
