Maurice D. Levi : International Finance 5th Edition before purchasing it in order to gauge whether or not it would be worth my time, and all praised International Finance 5th Edition:

1 of 1 people found the following review helpful. A classic book on international finance By kamal nayan bhandari this is an excellent book written in simple language, yet explaining the concept clearly. I read an older version of this book in 1995 and in 2013 when I needed to refresh my concept I again took help of this classic by Dr Maurice Levi. I consider this book along with International Economics by Kennan and Multinational Corporations by Dunning as an excellent combination for an international management course. kamal n bhandari

The fifth edition of Maurice D. Levi's classic textbook has been updated to incorporate the massive changes in

the world of international finance of the past few years. In particular, the emergence of new markets is given broad coverage ndash; particularly the rise to financial prominence of China and India and other growth economies in Asia and elsewhere. Key features of the book include:the impact of globalization and the greater connectedness of national economies and the world economy as a wholeprobably the best introduction to exchange rates available and how they directly impact upon firms as well as governments the continued massive impact of multinational corporations on the global financial scene as well as the opportunities presented by e-commerce. The material is interlaced with a wealth of supplementary material including real world case studies, review questions, examples and objectives. The result is the most authoritative survey of international finance currently available. Thoroughly updated and with a large amount of new information, this text will prove an indispensable guide to the inner workings of international finance to students of economics and business as well as professionals in the finance industry.

About the Author Maurice D. Levi is Bank of Montreal Professor of International Finance in the Sauder School of Business at the University of British Columbia, Canada.
