Brooks Kathleen : Kathleen Brooks on Forex: A simple approach to trading foreign exchange using fundamental and technical analysis before purchasing it in order to gage whether or not it would be worth my time, and all praised Kathleen Brooks on Forex: A simple approach to trading foreign exchange using fundamental and technical analysis:

2 of 2 people found the following review helpful. Great Read!By ClericThis is going to be short and to the point, I've been studying Forex for the last year, I have blown accounts and wasted countless hours on things not worth my time.Only when I started putting Fundamentals and Technical Analysis together have I actually started to have success.You can trade one or the other for sure but once you get the big picture, It is very powerful. I wish I would have started from the beginning with this book. I can not recommended this book highly enough.Thank you for the well written material!1 of 1 people found the following review helpful. excellent intro to fundamental analysisBy ted rWell worth reading. Buy other books for technical analysis. This is a big picture book with very clear, understandable explanations of all the aspects of trading. Very honest and balanced.1 of 1 people found the following review helpful. Worth buyingBy Dr. C. OoiClear writing and useful information and is worth reading

A simple approach to foreign exchange successMany foreign exchange traders use either fundamental analysis or technical analysis and they're often considered to be mutually exclusive approaches. But FX does not have to be traded that way - fusing the two types of analysis will improve your research and, more importantly, your trading results.This is how Kathleen Brooks trades foreign exchange and she has found it to be successful. In Kathleen Brooks on Forex she reveals the secrets of this approach, demonstrating the indicators she uses, and showing through detailed examples how she plans and executes profitable trades.At the heart of Kathleen's trading philosophy is the principle that fundamental factors - in politics, economics and society - cause currency prices to move in the medium to long term, but throughout the day price movements are best anticipated by looking at technical factors. Building a trading plan around the two sets of indicators works for her. By reading about how she does her pre-trade market analysis (the homework), forms a trading plan and puts the plan into action, you will see how to apply this principle in practice in your own trading.The book is divided into four sections:- Part A: using fundamental indicators to gain an impression of the market- Part B: using technical indicators to refine your trading plan- Part C: fusing fundamental and technical analysis to select trades- Part D: revealing Kathleen's risk management techniquesKathleen's description of her method, and ideas on how you can use it too, will appeal to anyone who wants to learn more about how to trade foreign exchange as well as those already in the market looking for a fresh approach. Blissfully free of rhetoric, written in an accessible personal style and punctuated with anecdotes from Kathleen's unique career in the markets, this is a new and refreshing look at foreign exchange.

About the AuthorKathleen Brooks is UK and EMEA research director at Forex.com based in London. She uses both fundamental and technical methods in her analysis and often fuses the two to get a complete picture of the market. Her philosophy of market analysis is to break things down to their most simple parts and build from there. She is a regular contributor to Yahoo Finance, Reuters Great Debate and she is often quoted in international publications including the Wall Street Journal and the Financial Times. She can be seen regularly on business TV including CNBC, CNBC Arabia, Sky News Australia and the BBC. She started her career in finance at BP where she worked first as a business analyst in its trading division and then as a trading analyst in its foreign exchange dealing room. Prior to joining Forex.com she was a financial features writer for City A.M. Kathleen holds an undergraduate degree in English Literature and Classical Civilization from Trinity College Dublin, and a Master's of Science from The Graduate School of Journalism at Columbia University in New York City.
