By Chris The start of this book is slow, however don't let that deter your from reading the entire thing (over and over). There are some real golden nuggets in here. Dan Kennedy is among the best in the world when it comes to Direct Response Marketing, Sales and how to make a lot more money in your business. Get all his books, watch all the videos and IMPLEMENT his ideas. You will experience success. Also, I've read other "sales" books. This

book is different from all of them because Dan doesn't try to pump you up to do things that are not fun (cold calling, prospecting). There are alternatives to these mind-numbing, soul-sucking strategies that are outlined in this book. If I could give it 10 stars I would. 0 of 0 people found the following review helpful. Something NEW Every Time I Read It By Ken Newhouse - Copywriter I learned a long time ago to separate the wheat from the chaff when studying Dan's work, reading his books or attending his events. This book (as most of his work) offers real value to those who want brass knuckles sales advice that is simply unmatched anywhere. As an avid student of great copy (salesmanship in print) I liken Dan to the greats like Bencivenga and Schwartz. Study this book. Apply Profit 3 of 3 people found the following review helpful. Focus and Meaning explained with abundant clarity and purpose. By Maurice Jadouin I rarely complete client satisfaction surveys or book reviews etc. However, this book by Dan Kennedy is something else - an excellent tool for those who really want to take sales to the highest level possible. Dan's methods are inherently tenacious yet robustly purposeful.
