John Mattone : Powerful Executive Coaching before purchasing it in order to gauge whether or not it would be worth my time, and all praised Powerful Executive Coaching:

0 of 0 people found the following review helpful. I like John Mattone's Intelligent Leadership BooksBy A. SimonYou will too. Even if it is for you. Behavior change is challenging. When you realize where you are strong or challenged you can begin to refocus your efforts. People hate to change. So how can a book like Powerful Executive Coaching set forth a process, simple and easily understood that can help you build leaders better.0 of 0 people found the following review helpful. Amazingly similar to Marshal Goldsmith's wordsBy StoliI liked the material. I was shocked though by how uncannily similar the words, thought and actions to take were to Marshal Goldsmith's work. I guess imitation is

the highest form of flattery.

Leaders can make or break a company; which is why coaches are so crucial. Effective coaching can ensure that executives reach their peak potential and drive organizational results. Powerful Executive Coaching delivers a concise, but powerful look to how to coach current leaders and high potentials. It goes straight to the core components of successful coaching: assessing and enhancing the essential inner-core attributes (i.e., resilience, empathy, creativity) and outer-core skills and competencies (i.e., decision-making, critical thinking, communication) required of excellent leaders. Including carefully selected worksheets and tools, Powerful Executive Coaching explains some of the most critical skills, such as how to: handle a coaching intervention; prepare individual development plans; structure and conduct coaching effectively; interpret feedback; deal with resistance; and promote self-awareness. It's just what you need, and only what you need, to get started on high-impact coaching that will drive leaders to success.
