**Stefan Heck, Matt Rogers, Paul Carroll : Resource Revolution: How to Capture the Biggest Business Opportunity in a Century** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Resource Revolution: How to Capture the Biggest Business Opportunity in a Century:

1 of 1 people found the following review helpful. Fantastic book on future changes that will take place affecting ...By Kevin Krease Fantastic book on future changes that will take place affecting most industries regarding resources and the technology needed to bring about those revolutions. Best part of the book is the data; super rich data to help anyone thinking about creating a company in a space that's more valuable than mere advertising (free apps). Definitely

worth a read for the price. 1 of 1 people found the following review helpful. Just Fine. By Yusuf Hamzah Pro: + Some stories of innovative firms are new. It serves as a good referral for me. + I like the Chapter Summary. Cons: - Structure of writing is not very coherent with mini ideas jump here and there. Occasionally, I lose track of the tree from the forest. - Graph has no source. 1 of 1 people found the following review helpful. Excellent book for current times By John Drown Excellent book for current times, and renewed thinking regarding what can be done relative to making new wealth creation from old processes. Have recommended this book to my family and friends. The individual facts about various industries and leaders in Industry are excellent and thought provoking.

What do shale gas, Elon Musk's Tesla, and the global apparel chain Zara share in common? In *Resource Revolution*, management experts Stefan Heck and Matt Rogers describe how each in its own way exemplifies a resource revolution—a use of natural resources so effective it defies conventional wisdom and enables breakthrough performance where others see only limits and shortcomings. *Resource Revolution* shows how to take what is being seen as a worldwide crisis and turn it into the biggest business opportunity of the past one hundred years. The rapid urbanization of a new 2.5-billion-person middle class in Asia will create an unprecedented demand for oil, steel, land, food, water, cement, and other commodities over the next two decades. Heck and Rogers explore the ways in which innovators, including start-ups and global leaders from Cree to GE, have answered the challenge with practical steps to guide managers everywhere.
